

## Guide For Enterprise School District's Virtual Academy-Online Learning

Below are informative documents and links for families that chose to participate in the Enterprise School District Virtual Academy.

---

Greetings!

We are excited that your student will be learning with us through online learning. Pearson's program, Connexus, will be the curriculum your child will receive which is taught by our own Enterprise School District teacher.

It's natural to have some questions and concerns when you enroll with a new educational setting. To help you start the school year strong, we will provide plenty of support for newly enrolled families. We do this because research proves that students perform better in school when parents learn as much as they can about virtual school in advance. Here are some simple things that you can do now to prepare your family for a successful school year.

### **Get Acquainted with FAMILY 411**

Pearson Online & Blended Learning's new family resource center provides helpful learning tools, including links to recorded orientations, interactive tutorials, how-to guides, and digital learning tips.

### **Complete the Caretaker Orientation course**

We recommend that caretakers learn about virtual school and take advantage of the opportunities they have to get involved and help ensure student success.

### **Organize your learning space**

Create a well-organized, comfortable learning place in an area where your student will learn best. Watch Setting up a Learning Space, in the Getting Started category, located in FAMILY 411.

Check system requirements

Make sure your computer equipment and software are updated so you and your student can fully benefit from our program.

### **Develop a plan**

Take time with your student to consider scheduling options and to discuss expectations as you complete Our Family Plan template, in the Getting Started category, located in FAMILY 411.
